

South Carolina
Department of Transportation

February 24, 2003

Mr. M. V. Miles
23175 N. Highway 1
Fort Bragg, Ca. 95437

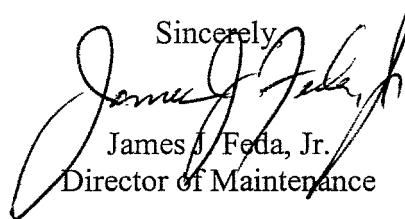

Dear Mr. Miles:

Your letter to Mr. Stan Shealy concerning the use of asphalt rap material for the construction and repair of school bus stops has been forwarded to me for response.

The South Carolina Department of Transportation does not use this material for this purpose. The rap material generated by the milling of asphalt pavement during construction projects becomes the property of the contractor and is hauled back to his/her facility and recycled. This material has also been used in the past as base material in lieu of crushed stone.

I hope you find this information helpful. Please do not hesitate to contact me should you have any additional questions.

Sincerely,

A handwritten signature in black ink, appearing to read "James J. Feda, Jr.", is written over the typed name and title.

James J. Feda, Jr.
Director of Maintenance
